Discuss Pedagogy

The VT Graduate Academy for Teaching Excellence serves as a community hub for graduate students who are interested in teaching to connect with each other as well as faculty, staff, and other campus resources.

Pedagogy Resource Repository

The VT Graduate Academy for Teaching Excellence hosts a wealth of pedagogical resources that may help one improve their teaching.

Service Work

The VT Graduate Academy for Teaching Excellence provides service to the campus and broader community by providing some human, technical, and other resources in support of teaching and improving one’s pedagogy.

Research and Funding

This blog post is in part processing a few research thoughts and working on research statements for my Feminist Research Methods course. Last week was Grad Ed Week at Tech. Part of what that brought

Recruiting and graduating the leaders of tomorrow

Diversity Scholars Program
Diversity Scholars are graduate students who specialize in and advocate for the awareness, knowledge and skills associated with diversity and inclusion in the Graduate School and community. The goal of the Diversity Scholars Program is to create dialogue, provide advocacy, and implement changes for a more diverse and inclusive experience for all graduate students, faculty, staff, and administration. The Scholars do this in many forms such as influencing curriculum or research agendas, providing leadership and educational tools for effective communication and multicultural competencies, and implementing programs aimed at increasing awareness of global and social justice issues.

Funding Opportunities
Various forms of funding are available to students and academic departments to support the recruitment and retention of top candidates. The Graduate School's Dean Diversity Assistantships are given to faculty-nominated students who demonstrate strong academic abilities and are underrepresented in their field. These are two-year assistantships with one year of funding provided by the Graduate School and year two funding provided by the department.

Students are encouraged to take GRAD 5214: Diversity and Inclusion for a Global Society as well as participate in campus activities which promote diversity and inclusion. Students are nominated for this program and are offered a modest compensation upon completion. Diversity Scholars are expected to mentor future Diversity Scholars and continue participation in the program to graduation.
